

“MARGDARSHAN”
For the budding Engineers, 2023
Date: 29/06/2023 & 06/05/23

The department of Electronics and Communication Engineering, B. P. Poddar Institute of Management and Technology (BPPIMT), Kolkata organized a two days' interactive sessions “MARGDARSHAN”, for the budding Engineers on 29/04/23 & 06/05/23.

On day one Dr. Somali Sikder, Coordinator of the event welcomed all the participants at the beginning of the session. The event was inaugurated by respected Dr. Ivy Majumdar, Head of the Department, ECE. She also encouraged the students by highlighting the importance and relevance of the talk to boost up the students and encourage them to explore new horizons for advanced learning and collaborative works along with development of innovative ideas.

The first session was conducted by the eminent speaker Mr Kausik Dhar, a passionate technology leader with 24 years of rich IT experience from CTS shared his knowledge and expertise on the advancement of recent industry trends.

The second speaker Dr. Saumik Bhattacharya, Assistant Professor, Electronics and Electrical Communication Engineering (E&ECE), IIT Kharagpur briefed the future scopes and opportunities in higher study & research for ECE students. There were about 90 student participated from the department and were able to grasp important knowledge on aforementioned topics to meet industry requirements as well as achieve future goal from this event.

On day 2 started with the welcome speech of Dr. Susmita Biswas. First speaker Mr. Rupam Chowdhury, Jr. Engineer, Eastern Railway made aware the students on Public sector opportunities available to ECE students. Second speaker Mr. Soham Chatterjee, Application Developer Team Lead, Accenture informed the ECE audience about Opportunities in the IT sector.

Third session was conducted by Mr. Debasish Bakshi, T&P Officer, BPPIMT. He summarized the overall opportunities available to the ECE graduate engineers and how to prepare for those.

Ms. Arundhati Sengupta along with student coordinators Mr. Safalya Pan and Ms. Susmita Das structured the event. HOD and other faculty members of the department Prof. (Dr.) Arijit Saha, Dr. Surajit Mandal and Ms. Rashmita Mishra provided their valuable ideas and shared support to ensure overall success of the program.

The sessions were very much interactive and enriching. The event ended with a feedback session.
